Natural Large Boulders River Stone

“Natural Beauty in Unlimited Design.”

Aggregates from Chancellor Co., Inc. include loose gravel, crushed stone, and washed pebbles in varying sizes, shapes and colors. Most angular aggregates are machine-crushed and rounded aggregates were tumbled smooth over time in rivers and streams and screened to various size ranges.

Use aggregates for mulching, erosion control and other landscaping projects. Several options are offered as a foundation material to install flagstone and similar products for walkways including rock dust and sand.

We sell larger boulders and others size of natural stones to expand your design options.

SUPPLIER:

CHANCELLOR CO., INC.
5047 Cold Springs Road
Raphine, VA 24472
540-377-6038

PRODUCER:

Shenandoah Stone™
5047 Cold Springs Road
Raphine, VA 24472
540-377-5893
